

Hello Lummi Nation High School Seniors,

November 5, 2020

Are you interested in college but don't know what to do to prepare? Futuresnw.org is an organization dedicated to making college and training programs accessible for all interested.

I volunteer for FuturesNW as an Educational Advocate to provide information regarding college access for seniors and Lummi families. If you would like to learn more about post-secondary college access and help with financial aid completion efforts for school year 2020 / 2021. I am willing to visit virtually or in person while practicing social distancing with College/Career exploration, application, financial aid, and technical navigations for resources on Futuresnw.org website.

Please email me at Katsolo360@gmail.com or call (360) 296-0551 if you are interested in me being your Educational Advocate. I will need your name, phone number, and email. Let me know your preferred methods of communication. Together we can agree on location and set a date to begin.

Hy'shqe,

Kathleen Solomon

(360) 296-0551
